### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Smith on 12/14/2005.

The application has been amended as follows:

- On line 13 of claim 33: "after waiting a predefined additional time delay" has been replaced with - - wherein a slave node that is not a neighboring node of the master node is configured to delay a predefined time period after receiving a message before transmitting the modified message to a next slave node in the network - -

### ***Allowable Subject Matter***

2. Claims 20 and 22-34 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest propagating synchronization status messages from the master node to a plurality of slave nodes where slave nodes that are not neighboring nodes of the master node are configured to

delay a predefined time period after receiving a message before transmitting the modified message to a next slave node in the network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory B. Sefcheck whose telephone number is 571-272-3098. The examiner can normally be reached on Monday-Friday, 8:00am-4:30pm.
